PROTECT YOUR APPS AND APIS TO DELIVER SECURE DIGITAL EXPERIENCES

Join us and your peers in this exclusive event for senior-level conversations, exchange of ideas and networking

LOCATION & DATE

London   June 22nd, 2022

As digital transformation continues to expand, the exploding numbers of applications, integrations, and platforms are creating complexity that's increasingly unmanageable. Ensuring customers have an excellent digital experience is more important than ever, but so is security. So how do you balance it all?

We're hosting an exclusive dinner for security leaders to discuss common challenges around apps and API security and how their organisations care about securing their digital experiences. It's a great opportunity to meet with peers, share insights and benchmark ideas.

It's time to make cybersecurity personal.

Join us in this exclusive dinner will gather security leaders to discuss common challenges around Apps and API security and how their organisations can secure their digital experiences. It's a great opportunity to meet with peers, share insights and benchmark ideas.

JOIN US TO DISCUSS HOW TO:

- Streamline multi-cloud security orchestration
- Manage and secure APIs
- Reduce fraud and abuse
- Simplify security to aid app development
